Care  
Please see the ISO symbols. Vacuum clean frequently, ideally every week.  
Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary.  
Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid.

# Steelcut Quartet

Softness, colour depth  
and durability. Has a  
sustainable profile and  
comes in optimistic,  
warm colourways

Care  
Please see the ISO symbols. Vacuum clean frequently, ideally every week. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid.

# Steelcut Trio 3

An unicoloured look  
from a distance,  
reveals different  
nuances as the viewer  
gets nearer.

Care  
Please see the ISO symbols. Vacuum clean frequently, ideally every week. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid

# Craggan Flax

Deeply textured and thickly woven, it effortlessly blends comfort with style to bring irresistible tactility and visual detail to both task and soft seating.

**Cleaning**  
Vacuum regularly. Wipe with a damp cloth using a proprietary upholstery shampoo/soap. For deeper cleaning use steam or professionally dry clean. Full details can be found in our cleaning and disinfection guide.

\*Results from abrasion testing are highly variable and are therefore not a reliable indicator of the wear performance of the fabric. All independen certification is supported by a 10 year durability guarantee. Internally we specify this product at >40,000 cycles which we believe is realistic fo repeatability of testing.The stated technical and environmental performance of a fabric may be affected by the post treatment applied.

Product guarantees for the post treatment of fabrics undertaken by Camira are guaranteed for 5 years. Please note that seam performance i: dependent on seam construction, needle and thread type. We recommend that appropriate sewing advice be taken. Batch to batch shadi variations may occur within commercial tolerances. We reserve the right to alter technical specifications without notice. The Unregistered Design Rights and the Copyright in all designs are the exclusive property of Camira Fabrics Limited.

Care  
Please see the ISO symbols. Vacuum clean frequently, ideally every week. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid.

# Blazer

Made from premium New Zealand lambswool, providing the highest quality raw material that is ideal for spinning, weaving and dyeing.

Cleaning  
Vacuum regularly. Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.  
For deeper cleaning use steam or professionally dry clean.

# Relate

A dense directional weave that unites two different unicoloured yarns which seemingly melt together.

Care  
Please see the ISO symbols. Vacuum clean frequently, ideally every week if fixed covers. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid. Also washable at 60-80°C, half wash load. Drip drying. Mount in moist condition. Shrinkage app. 2% at 60°C. Be aware of increased shrinking and creasing the higher the temperature.

# Techni-colour

Tactile melange upholstery woven from locally sourced wool, defined by a specially developed colour system and enhanced softness, creating subtle surface movement.

Cleaning  
Vacuum regularly. Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.  
For deeper cleaning use steam or professionally dry clean.

Colors may slightly vary due to photographic lighting sources or your monitor settings.

# Fox

A selection that takes its elegance from calm and simple colours and makes a difference with its texture.

| CARE AND CLEANING                                                                                                                                                                                                    | • The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants.<br><br>• Any stain, spills, or soiling should be cleaned up promptly to prevent the possibility of permanent staining.<br><br>• Vinyl fabrics treated with PERMABLOK3® require a minimum of maintenance to retain their good looks. Use soft soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth.<br><br>• Lacquers, strong cleaners, detergents, xylene-based solutions, acetone, or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at the owner's risk. |

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. SPRADLING International GmbH, SPRADLING UK Ltd, and EURO SPRADLING S.L.U will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

# Autumn

Upholstery textile woven from 100% recycled polyester, defined by a layered weave that offers a soft hand and a nuanced melange colour palette inspired by the transient nature of ageing.

Care  
Vacuum clean frequently, ideally every week if fixed covers. Remove stains as soon as they occur, with clean warm water or sparkling water. Extraction clean when necessary. Extraction cleaning might dissolve water-based glue. Pay attention to temperature and amount of cleaning fluid. Disinfection, see kvadrat.dk

# Fiocco

Featuring a distinctive bouclé texture, it is crafted from 100% Trevira CS polyester, making it an elegant and versatile choice for office and contract applications.

Cleaning  
Vacuum regularly. Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.  
For deeper cleaning use bleach or alcohol.

# Aspect

A subtle mélange,  
textured fabric  
with a warm soft  
handle, balancing  
superior flammability  
performance and  
a natural aesthetic.

| CARE AND CLEANING                   | • The vinyl should be cleaned periodically in order to maintain its appearance and prevent build-up of dirt and contaminants.<br><br>• Any stain, spills, or soiling should be cleaned up promptly to prevent the possibility of permanent staining.<br><br>• Vinyl fabrics treated with PERMABLOK3® require a minimum of maintenance to retain their good looks. Use soft soapy solutions or special cleaning products for vinyl fabrics to remove stains on the surface of the material. Remove only with a damp white cloth.<br><br>• Lacquers, strong cleaners, detergents, xylene-based solutions, acetone, or MEK cause immediate damage and contribute to the deterioration of the material. The use of such cleaners is at the owner's risk. |

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. SPRADLING International GmbH, SPRADLING UK Ltd, and EURO SPRADLING S.L.U will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.

PERMABLOK3® is a registered trademark of Spradling Holdings, Inc.® | Hi-Loft2™ and VALENCIA™ are trademarks of Spradling Holdings, Inc.®

- Product Characteristics
- Only valid for Loop colour codes.
  - It can be cleaned with neutral cleaning materials. Chemical solvents should not be used.
  - The detergent must not include oxide bleach and bleach.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - The product should not be exposed to direct sunlight.
  - The cutting should be done after the approval of the colour, tone and defect controls by the related parties. In this context, taking into account that, although exceptional, there may be tonal differences of products that arrive in pieces, they should be checked with the delivery of the product before cutting. Making upholstery without above mentioned examination may cause not getting the desired result.
  - While cutting or upholstery, the products should never be left folded, nor should they be left under-weight that may cause forming lines on them.
  - The tape should never be used on the product surface. This matter, which our company pays attention to, should not be overlooked after the product has been checked or if it is wrapped for a second time during use. When the leftover product should be rolled, please pay attention not to fold it tightly.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining.
  - Stains, such as oil, chocolate, chewed gum should never be cleaned with liquid (water, thinner, acetone and other solvents).
  - Dry cleaning methods are also recommended for such stains.
  - Vacuum cleaner can be used on daily and weekly basis.
  - Please get a confirmation about stocks.
  - The using place and purpose of the product should be conventionally accepted places and purposes.
  - No liability can be accepted for products that are not used properly.
  - The information stated above is of reliable common values. Please ask for special values of the contract.

# Era

Cleaning  
Vacuum regularly. Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.  
For deeper cleaning use steam, bleach, alcohol or professionally dry clean. Can be washed at 60°C.

PRODUCT SPECIFICATIONS

| Technical Informations     | Unit                      | Value    | Test Method |
|----------------------------|---------------------------|----------|-------------|
| Composition                | 60% polyester, 40% cotton |          |             |
| Weight                     | gr/m²                     | 440 ±20  | ISO 2286-2  |
| Width                      | cm                        | 140 ±2   |             |
| Resistance to Abrasion     | cycles                    | >40.000  | ISO 12947-1 |
| Colour Fastness to Light   | bw                        | 4/5      | ISO 105-B02 |
| Colour Fastness to Rubbing | wet<br>dry                | >5<br>>5 | ISO 105-X12 |
| Roll Length                | m                         | 50 ±10   |             |

**Liquid Stains**  
Blot the liquid stain gently with a high-absorbent material. Pat dry the area gently with a dry material to remove the remaining humidity (cotton cloth, paper towel, etc...), If the stain from the spill remains, remove the stain with a soapy cloth without diffusing the stain. After each rubbing motion, refresh the clean soapy cloth in order to prevent soiling.

**Solid Particles**  
Remove the excess soiling with ultimate care without diffusing. Remove the solid particle from the fabric surface with the help of a soft spatula. To remove dust, use a vacuum cleaner or a soft brush. The remaining stains should be removed by rubbing with a soapy cloth in circular motion.

**Ball-Point Pen and Similar Difficult Stains**  
Dampen a clean cotton cloth in a white soap solution. Rub the stain off gently. Clean the surface with the damp cloth and leave the fabric for drying.

**Alcohol Derives**  
Petroleum and alkali based solvents should not be used for cleaning. After all cleaning processes, the drying should be done with a low temperature blow dryer in large circular motion or the fabric should be left for natural drying. After drying, misoriented and damaged piles should be fixed with a soft brush.

Valid for all colors. Red colors may have less color fastness to rubbing.

- Product Characteristics
- Only valid for Canyon colour codes.
  - The cleaning process should start around the stain and held without dispersing the stain. It should be cleaned by gently wiping.
  - You can wipe off ballpoint pen stains with 20% ethanol. For other stains such as coffee, tea, milk, cosmetics, jam, syrup, fruit juice 40c lukewarm water, neutral cleaning agents and sponge can be used.
  - In oil and grease stains, the stain can be wiped of with the help of a brush after the chalk powder is used for covering the stain.
  - The shoe polish stain can be removed with perchloroethylene or 10% diluted ammonia.
  - All kinds of real and artificial leather should not be cleaned with bleach, detergent, coloured soap and similar materials and the product should not be exposed to direct sunlight. It should be kept away from sources of strong light (spot, etc.) and heat.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining.
  - Please get a confirmation about stocks.

- Product Characteristics
- Only valid for New King colour codes.
  - Our Atlantis product line has flame retardancy feature.
  - The cleaning process should start around the stain and held without dispersing the stain. It should be cleaned by gently wiping.
  - All kinds of real and artificial leather should not be cleaned with bleach, detergent, coloured soap and similar materials and the product should not be exposed to direct sunlight.
  - The product should be kept away from sources of strong light (spot, etc.) and heat.
  - The using place and purpose of the product should be conventionally accepted places and purposes. No liability can be accepted for products that are not used properly.
  - Leather products should not be kept in plastic packaging and humid places for a long time. Solid objects such as toys and jewellery may cause unintended starches on the material.
  - Leather-covered products should be placed at least 50 cm away from heat sources (stoves, radiators, fireplaces, etc.). Otherwise, the leather may lose moisture which may cause undesired cracks.
  - Impacts, scratches, etc. that may occur due to transportation and external. should be considered out of warranty.
  - Direct contact of pets with leather goods should be prevented.
  - Direct contact of the products with high surface temperature (iron, etc.) with the leather may cause a damage.
  - Protect the leather from harsh blows.
  - Since ink on newspapers or magazines may get on the product and leave a permanent stain, do not leave it on the product. Especially if you sit with new jeans that give dark coloured paint on light coloured leather as an example, there may be stains. Note that this stain is not caused by the leather itself, but by the trousers that dye and colour.
  - Weekly remove the dust or dirt on the surface of the product with a damp white and soft cotton cloth dampened with soapy water, rinse and dry when necessary.
  - When coffee, tea, etc. spilled: Use a highly absorbent white cloth or paper. Do not delete it immediately! Make sure the stain is absorbed by the cloth or paper.
  - Wipe off the remaining moisture with a soft cloth in circular motions.
  - Alcohol and cologne are not recommended for difficult stains such as ink, ballpoint pen, lipstick. Wipe with warm soapy water with gentle circular movements.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - Please get a confirmation about stocks.

- Product Characteristics
- Only valid for New Sabine colour codes.
  - It can be cleaned with neutral cleaning materials. Chemical solvents should not be used.
  - The detergent must not include oxide bleach and bleach.
  - There may be colour and tone differences between different lots, arising from the nature of the production and within conventionally accepted limits.
  - The product should not be exposed to direct sunlight.
  - The cutting should be done after the approval of the colour, tone and defect controls by the related parties. In this context, taking into account that, although exceptional, there may be tonal differences of products that arrive in pieces, they should be checked with the delivery of the product before cutting. Making upholstery without above mentioned examination may cause not getting the desired result.
  - While cutting or upholstery, the products should never be left folded, nor should they be left under-weight that may cause forming lines on them.
  - The tape should never be used on the product surface. This matter, which our company pays attention to, should not be overlooked after the product has been checked or if it is wrapped for a second time during use. When the leftover product should be rolled, please pay attention not to fold it tightly.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining
  - Stains, such as oil, chocolate, chewed gum should never be cleaned with liquid (water, thinner, acetone and other solvents).
  - Dry cleaning methods are also recommended for such stains.
  - Vacuum cleaner can be used on daily and weekly basis.
  - The dark colours of this product, which is produced as ball painting, should be cleaned with a damp cloth after laying and afterwards, the paint crumbs that could remain between the textures. This process can be done several times if necessary.
  - The product has a teflon feature.
  - Please get a confirmation about stocks.

In this context, taking into account that, although exceptional, there may be tonal differences of products that arrive in pieces, they should be checked with the delivery of the product before cutting. Making upholstery without above mentioned examination may cause not getting the desired result.
  - While cutting or upholstery, the products should never be left folded, nor should they be left under-weight that may cause forming lines on them.
  - The tape should never be used on the product surface. This matter, which our company pays attention to, should not be overlooked after the product has been checked or if it is wrapped for a second time during use. When the leftover product should be rolled, please pay attention not to fold it tightly.
  - All kinds of leather and velvet should not come into direct contact with the sponge. Sponge should be covered with interlining or cotton lining.
  - Stains, such as oil, chocolate, chewed gum should never be cleaned with liquid (water, thinner, acetone and other solvents).
- Dry cleaning methods are also recommended for such stains.
- Vacuum cleaner can be used on daily and weekly basis.

# Gana

Voluminous fabric  
with a 3D look  
emerging from  
opposite colour  
schemes.  
A balanced view  
in every space.

**Product Characteristics**

- Avoid placing leather near direct sunlight.
- Keep the leather away from heat sources.
- Dust regularly with a soft and dry cloth.
- If a spill should occur, blot immediately with a clean absorbent cloth or sponge.
- For deeper cleansing use a lightly damp cloth with natural soap. Do not saturate.
- Do not rub. Use a circular motion and clean the entire surface.
- Using a soft and dry cloth, dry immediately after the treatment.
- Never use household cleaning agents, furniture polishes, ammonia, bleach, varnish, oils or similar.
- If you wish to use specifically made creams or lotions for leather upkeep and care feel please consult specialized companies and leather professionals who supply such sets. If you need recommendations on who to consult, we are happy to indicate.

All our leathers comply with the strict regulations and EU Directives covering the use and presence of PCP, CFC, Chromo VI, Dimethylfumarate (DMF) and Azo dyestuffs during the tanning process. Due to the natural properties of leather colour variations between one dye lot and another may occur.

This technical specification sheet replaces any copies in your possession. The values indicated in this sheet refer to the leather at the time of supply. Once the leather has been processed, cut, marked we can no longer guarantee the same values.

Considering the natural aspect of this product and unpredictable related factors, we reserve the right to change the indicated specifications at any time without prior notice.

**Important Note**  
Please note that leather is natural material that becomes soft and stretches over time.
